In re Application of :  
BRADBURY, et al. :  
Application No.: 09/856,907 :  
PCT No.: PCT/EP99/08856 : DECISION ON PETITION  
Int. Filing Date: 18 November 1999 :  
Priority Date: 19 November 1998 : UNDER 37 CFR 1.137(b)  
Atty. Docket No.: 6278 :  
For: METHODS FOR THE PREPARATION OF :  
NUCLEIC ACID AND POLYPEPTIDE :

The petition to revive under 37 CFR 1.137(b) filed 30 January 2006 in the above-captioned application is hereby **GRANTED** as follows:

Applicant's statement that "This application became abandoned because the failure to prosecute was an unintentional delay. The delay in filing the required reply from the due date until the filing of this petition was unintentional 37 C.F.R. §1.137(b)(3)" and the prompt filing of the petition satisfies the requirement of 37 CFR 1.137(b)(3).

A review of the application file reveals that applicant has now provided a compliant sequence listing. Therefore, the request to revive the application abandoned under 35 U.S.C. 371(d) is granted as to the National stage in the United States of America. Further, a review of the application file reveals that all of the requirements of 35 U.S.C. 371 for entry into the national stage in the United States were satisfied with the filing of an executed declaration of the inventors on 29 May 2001.

The application has an international filing date of 18 November 1999 under 35 U.S.C. 363 and will be given a date of **29 May 2001** under 35 U.S.C. 371(c)(1), (c)(2) and (c)(4).

This application is being returned to the United States Designated/Elected Office (DO/EO/US) for treatment in accordance with this decision.
